SwissCore
and the
Swiss Mission to the European Communities
kindly invite you to a
Science Luncheon
on
Swiss Houses: Outposts for
Swiss Science in USA and Asia

with
Claudio Fischer
Head of International Affairs
Swiss Science Agency

Wednesday, 17 November 2004, 12.30h – 14.30h
Swiss Mission to the EC, Place du Luxembourg 1, Brussels

With its Swiss Houses for Research and Higher Education in Boston and San Francisco, Switzerland has created two Science Consulates in the USA. Now the focus shifts to Asia: The Swiss House in Singapur is freshly inaugurated, "Operation Shanghai" is in preparation. These are first steps of a concept which should result in an effective network of outposts of Swiss Science in the World:
Swiss hot spots for Science and Technology.
Join us for a casual Luncheon Event to discuss this venture with the person who co-ordinates it: former Swiss Science Counsellor in Brussels, Claudio Fischer.

Rsvp before 12.11.04 to Nadia Schüssler (Swiss Mission): nadia.schuessler@eda.admin.ch

Tel. 02 286 13 02

With the support of the Swiss Science Agency
